**Verse 1:**

E                    G#m    Asus2            E  
 Where are you going inside your mind  
 Asus2                E                    F#m                B7    B7  
 I guess we're always living on borrowed time  
 E                    G#m    Asus2            E  
 Yes I will be here to hold your hand  
 Asus2                E                    F#m                B7  
 Just close your eyes and sleep, I understand

**Chorus:**

E                    F#m    G#m            Fdim  
 You'll fly with angels above us all  
                   F#m    B7                    E  
 And I'll be here to catch you if you fall

**Verse 2:**

If others leave you, you know I'll stay  
 My dreams will whisper to you and guide your way  
 So sleep my darling, one kiss good night  
 Another song awaits you, with rising light

Chorus:

Bridge: C - Dm - Bm - E - Am - Am - B7 - C7

Chorus (modulation)

F                    Gm            Am            F#dim

You'll fly with angels above us all

          Gm                    C7                                    F

And I'll be here to catch you if you fall
