Intro:

C Cmaj7 Am Gsus2 F Cmaj7 Dm7 Dm7

Verse 1: (chords same as intro)

I set out on a great adventure,  
 The day my Father started leading me home,  
 Said there's gonna be mountains to climb,  
 And valleys we're gonna go through.  
 But I had no way of knowing,  
 Just how hard this journey could be,  
 Cause the valleys are deeper  
 And the mountains are steeper than I ever would have dreamed

Chorus:

F Am  
 But I know we're gonna make it,  
 F Am  
 And I know we're gonna get there soon  
 F Am D7sus4 D7  
 And I know sometimes it seems like we're going the wrong way  
 F Fm  
 But it's just the long way home

Middle Intro: C Cmaj7 Am F

Verse 2:

Some rocks on my shoes,  
 Fears I wish I could lose,  
 That make the mountains so hard to climb,  
 And my heart gets so heavy with the weight of the world  
 sometimes.  
 There's a bag of regret,  
 Should've been and not yet,  
 That keep on dragging around,  
 And I can hardly wait till the day I get to lay them all down.

Chorus:

Bridge:

When we can't take another step,

The Father will pick us up and carry us in His arms,

And even on the best days, He says to remember

we're not home yet,

So don't get too comfortable,

Cause really all we're is just pilgrims passing through.

Intro: (whistle)

Chorus 2:

Well I know that day is coming,

And I know it's gonna be here soon,

I'll keep on singing and believing what all of my songs say,

Cause our God has made a promise,

And I know that everything He says is true,

And he promised He would never ever leave us

He's gonna lead us, He'll lead us home,

Every single step of the long way home,

So keep on, we're gonna make it,

We're just taking the long way home,

Keep on we're gonna make it,

I know we're gonna make it,

It's just a long way home.
