

She Never Cried In Front Of Me (Toby Keith)

Intro:

Verse 1:

Its 7:35, shes someone elses wife

And I can get on with my life, and that thrills me

She married him today, her daddy gave the bride away

I heard a tear rolled down her face, and that kills me

cuz now I, can see why, she's finally crying

Chorus:

How was I supposed to know, she was slowly lettin go

If I was puttin her through hell, hell - I couldn't tell

She could've given me a sign and opened up my eyes

How was I supposed to see, she never cried in front of me

Verse 2:

Yeah maybe I might've changed, its hard for me to say

But the story's still the same, and it's a sad one

And I'll always believe, if she ever did cry for me

They were tears that you can't see, you know the bad ones

And now I, can see why she's finally crying

Chorus:

Bridge:

Without a doubt, I know now, how it outta be

Cause she's gone, and its wrong, and it bothers me

Tomorrow Ill still be asking myself

Chorus:
