

## The A Team (Ed Sheeran)

Intro:

Verse 1:

G            G            G            G  
White lips, pale face ,breathing in snowflakes  
(Em        C)            G            G  
Burnt lungs, sour taste  
G            G            G            G  
Light's gone, day's end, struggling to pay rent  
(Em        C)            G            G  
Long nights, strange men

Pre-Chorus:

Am                            Am            C  
And they say she's in the Class A Team  
C            G            G                            D            D  
Stuck in her daydream, been this way since 18, but lately  
Am                            Am            C  
Her face seems, slowly sinking, wasting  
C            G            G  
Crumbling like pastries, and they scream  
D                            D  
The worst things in life come free to us

Chorus:

Em                            C  
Cause we're just under the upper hand  
G                            G  
And go mad for a couple of grams  
Em                            C                            G            G  
And she don't want to go outside tonight  
Em                            C  
And in a pipe she flies to the Motherland  
G                            G  
Or sells love to another man  
Em                            C                            G            D  
It's too cold outside for angels to fly,  
Em    C            G            G            Em    C    G    G  
Angels to fly

Verse 2:

Ripped gloves, raincoat, tried to swim and stay afloat  
Dry house, wet clothes  
Loose change, bank notes, weary-eyed, dry throat  
Call girl, no phone

Pre-Chorus:

Chorus:
